Name of stream, lake, spring, underground or other source

2. The amount of water applied for is 5.4

One second-foot equals 448.83 gals. per min.

second-feet

(a) If stored in reservoir give number of acre-feet _____

3. The water to be used for Irrigation and domestic

Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated: 320

(b) Stockwater, state number and kinds of animals to be watered: _____

(c) Other use (describe fully under "No. 12. Remarks" _____

(d) Power:

(1) Horsepower developed _____

(2) Point of return of water to stream _____

5. The water is to be diverted from its source at the following point: from which the SW corner of Sec. 28

Describe as being within a 40-acre subdivision of public

T23N, R54E M.D. B&M bears S46° 13' 30" W. 1863.70 ft or being in the SE/4 of

survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.

SW/4 of said Sec 28 and from which the SW corner of Sec 28 T23N R54E M.C. B&M

bears S 72° 10' 33" W- 4196.52 ft.

6. Place of use S½ Sec 28 T23N R54 E M.D. B & M

Describe by legal subdivision. If on unsurveyed land, it should be so stated.

7. Use will begin about January 1st and end about Dec. 31st, of each year.

Month and Day

Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Drilled well, pump & motor. Irrigation by

State manner in which water is to be diverted, i.e. diversion structure, ditches and

self propelled circular sprinkler system and flooding.

fumes, drilled well with pump and motor, etc.

9. Estimated cost of works \$75,000.00 additional to existing well, pump & motor

10. Estimated time required to construct works 5 years
If well completed, describe works.
11. Estimated time required to complete the application of water to beneficial use 1/2 in two years and 1/2
in five years. Total estimated time is 5 years
12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

The existing well was completed, pump & motor installed 8/5/62 under permit #19004. Sufficient crops were irrigated to acquire proof on Desert Entry filing #Nev 051466. We ran out of money at that time and were unable to obtain financing to complete the required beneficial use obligations. We were forced to abandon our farm after investing every dime we had at that time. We are now able to pick up where we left off and hopefully we can salvage something from our hard work and investments. Attached are copy's of the survey and well logs which were filed with permit #19004.

Protested _____

DENIAL OF STATE ENGINEER

deny

This is to certify that I have examined the foregoing application, and do hereby ~~grant~~ deny the same, subject to the following limitations and conditions:

This application is hereby denied on the grounds that the granting of the water right to irrigate additional land within the designated Diamond Valley would conflict with existing rights and threaten to prove detrimental to the public welfare in this area where pumpage exceeds the estimates of perennial yield.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed _____ cubic feet per second.

Work must be prosecuted with reasonable diligence and be completed on or before _____

Proof of completion of work shall be filed before _____

Application of water to beneficial use shall be made on or before _____

Proof of the application of water to beneficial use shall be filed on or before _____

Map in support of proof of beneficial use shall be filed on or before _____

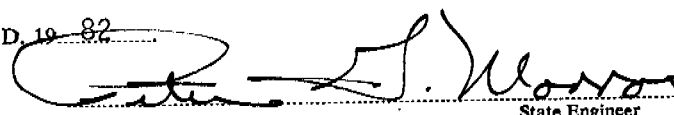

Completion of work filed _____ IN TESTIMONY WHEREOF, I, PETER G. MORROS,
